APPENDIX 2

GARMIN GPS

Changes = thus

Version released on 04.01.2018

1. GENERAL

- 1.1. It is mandatory that each competitor carry a properly working GARMIN GPS device during running of the itinerary.
- 1.2. It is the responsibility of the competitors alone to properly turn on the device at the Prestart of each Leg (power on, GPS settings, track log function enabled, power supply, etc.)
- 1.3. Each crewmember must have a basic knowledge of working with their Garmin GPS device – power on, show current position.
- 1.4. GPS settings:
 - World Geodetic System: WGS84
 - Coordinates format: hddd.ddddd
 - North: True North
 - Track log ON
 - Track recording option – automatic. If no automatic setting is available, a Time interval -5 second must be chosen.
 - “Overwrite when full”

2. ALLOWED GARMIN GPS MODELS

- 2.1. Must have TRACK LOG function
- 2.2. Must have working USB connector (Mini / Micro USB interface)

3. NOT ALLOWED GARMIN GPS MODELS

- 3.1. GPS devices which do not have TRACK LOG function
- 3.2. GPS devices with SERIAL/COM ports or with no communication ports at all
