------------------	----------	--------------	----------

For ENDURO & ATV only
NAVIGATION SYSTEM (NAV-GPS)

1. Each rider must have an operational GARMIN GPS from the following models only. No others will be allowed:
 - GARMIN MONTANA 700, 700i or 750i
 - GARMIN MONTANA 610 to 680
2. The Garmin GPS device must be installed on the navigation tower of the Enduro or ATV and connected to the POWER SUPPLY according to the manufacturer's instructions.
3. It is the rider's responsibility to ensure that the power supply and the Garmin GPS remains permanently connected and operational throughout the duration of the Leg.
4. The Garmin GPS devices will be checked, collected and labelled at the Administrative check.
5. At the first Time Control (Service Park Out) of each Leg the Garmin GPS devices will be given to the Riders.
6. At the "Check out control" (last Time control of the Leg) the Garmin GPS devices will be collected.
7. According to the road book, special interactive navigation maps, visible Waypoints, Speed limit zones and other information will be uploaded to the GPS devices day by day.
8. All preinstalled maps will be disabled and all currently saved GPS waypoints will be removed during the installation of the interactive navigation maps.
9. Together with the road book, the NAV-GPS system will be the only navigation tool allowed during the rally Legs.

Garmin MONTANA 7xx

Garmin MONTANA 6xx

Kind regards:

Alexander Kovatchev
Clerk of the Course
