---

**For SSV, CAR & TRUCKS only**  
**NAVIGATION SYSTEM (NAV-GPS)**

1. The organizer will provide each crew with one GARMIN MONTANA 700i with In-Reach satellite functionality. **This will be the only electronic device with navigation functionality allowed on board of the vehicle. All others must be removed.**
2. The Rental of the Garmin Montana 700i is included in the entry fee. A deposit must be paid at the administrative check.
3. Special mounting bracket including power connector will be supplied at the administrative check to be installed in the rally vehicles and must be returned after the finish of the rally.
4. The mounting bracket can be attached directly to the dashboard by screws or adhesive tape or to the roll-cage with the included U-bolt fittings.
5. It is the responsibility of the competitor to prepare and mount the bracket before the vehicle is presented for scrutineering.
6. The Garmin GPS device must be visible and accessible at least to the co-driver while seated with the seatbelts buckled.
7. It is the competitor's responsibility to ensure that the power supply is permanently connected and Garmin GPS stays operational throughout the duration of the Leg.
8. At the first Time Control of each Leg (Service Park Out) the Garmin GPS device will be given to the crews.
9. At the "Check out control" (last Time control of the Leg) the Garmin GPS devices will be collected.
10. According to the road book, special interactive navigation maps, visible Waypoints, Speed limit zones and other information will be uploaded to the GPS devices day by day.
11. Together with the road book, this NAV-GPS system will be the only navigation tool allowed during the rally Legs.
12. IMPORTANT: Read the Garmin Montana 700i operation manual: [OPEN LINK](#)

Kind regards:

Alexander Kovatchev  
Clerk of the Course
